Harold — This is the "memorandum" I spoke of; as you can see, it has no particular identification or designation (title, reference number) — and if I'm going to use it, I have to give its exact source — i.e., is it an FBI report — does it have a number or nomenclature? I'll be in New York — at the Drake Hotel again —

From Thursday 4/20, on — hopefully not for more than a week or 10 days — if you should want to contact me. Schiller + Lewis are publicizing their latest candidate for the vomitorium — The Scavengers...; they were on Jonax Sunday ridiculing us all + talking of "Jim" Liebeler with reverence! I can't believe anyone really cares — but I guess they get through to a few nit-wits.

More anon — Maggie.
